

Press Release

Roseau County Digital TV Delayed

October 19, 2009

Due to licensing and equipment delays, the transition to digital television scheduled for September 1st was unable to take place.

The digital equipment has been installed and our technicians are preparing the sites to go live. Testing will begin October 20th. PBS channel 9 will be the first channel to begin testing in digital.

For more information and to monitor testing, please refer to the **Digital TV Information for Northern Minnesota** website where you will find detailed information about the digital transition that is specific to Roseau County.
