## Memorandum of Agreement Template - Planning Phase

The attached Memorandum of Agreement (MOA) template contains all the basic elements for a collaborative decision-making process among the participating local units of government that meets the One Watershed, One Plan guiding principles. While this template applies specifically to the Planning Phase of One Watershed, One Plan, the participating organizations could modify it to apply to their on-going relationships during plan implementation.

A few items to consider in adapting this template for a specific watershed:

- This is just one example of an MOA; many other formats exist and may be used as long as the MOA and associated bylaws clearly outline the decision-making process to be used by the representatives of participating local units of government for plan development and submittal.
- In the template, highlighted italicized text indicates where information specific to the particular watershed must be entered.
- Participants are strongly encouraged to obtain assistance from the appropriate local government legal counsel in the development of any agreements and bylaws.
- Item 5b. Submittal of the Plan outlines two possible methods for an integrated review process intended to: meet statutory requirements for the plans being replaced; streamline the formal review process through joint submittal to the Board of Water and Soil Resources (BWSR); and ensure local adoption and implementation of the final watershed-based plan. Planning partners may propose a different method to BWSR, but that method must address these three factors.
- This template sets up a Policy Committee as the decision-making body during the Planning Phase. Local government partners that adopt the MOA must also designate a member of their governing board to serve on the Policy Committee. Some points about Policy Committee responsibilities to include In a cover letter and/or presentation to the boards of the respective parties:

### **Policy Committee Membership Expectations**

1. Actively attend and participate in all scheduled meetings of the Policy Committee. Consider also including an anticipated meeting schedule and frequency, for example “first meeting of the Policy Committee will be in.... The committee will meet approximately monthly through....” Also consider including a generalized outline of anticipated decision points during the process to build interest and provide an expectation of progress.
2. Actively engage in the decision-making process for watershed-based planning with the understanding that goals, objectives, and action items of the water plan must be prioritized, targeted, and measureable.
3. Help to keep board members and constituents apprised of the status and progress of the watershed-based planning process.
4. Utilize the technical resources of their respective entities to assist and inform their decisions in the water planning process.
